This morning's Torah portion, *M'tzora*, describes the ritual process by which a recovered leper is reintegrated into the community of Israel. As the *Etz Hayim* Torah translation suggests: "We can read it as a description of the Israelites' attitude to the experience of recovering from illness." Thousands of years later, we too can learn from the ritual re-immersion proposed by the text. When it comes to the inevitable illnesses all of us face or have faced, such a return to health should include prayers of relief along with an important declaration underscoring a deep and heightened appreciation for life.

We welcome you to join us after services today for Kiddush.
